Lead: EddyHR Acquires Pay-Role HR Solutions to Become the First True All-In-One HR Solution.

PROVO, UTAH December 2019 — EddyHR, one of the fastest-growing HR tech companies in Silicon Slopes, has acquired Pay-Role HR solutions, a fast-growing Utah-based payroll provider. This acquisition is the perfect opportunity for both companies to expand their customer base and grow the services they provide.

This competitive edge paired with EddyHR's cutting edge software will allow them to break through the herd of HR software and payroll providers in this industry.

EddyHR and Pay-Role HR solutions can now offer more than what their established competition ever could. This acquisition lets EddyHR provide the HR tools that small and medium-sized companies need. EddyHR now supports everything from a best-of-class human resource software to the compensation of a company's greatest asset.

Speaking of this acquisition, EddyHR founder and CEO, Travis Hansen, said, "EddyHR is on a mission to be the number one HR software for any small to medium business. We do whatever is necessary to make our customers happy. Adding payroll to our services is something our customers have asked for. Now we're able to fill that need with the expertise of Pay-Role HR."

Co-founder of Pay-Role HR Solutions, Jordan Boogaard, shares Hansen's enthusiasm. "Travis and his team are amazing people, we couldn't be happier to be working with a group with their success pedigree and drive to win. I am excited to join them!"
